DETAILED ACTION

Allowable Subject Matter

Claims 1-22 are allowed. The following is an examiner's statement of reasons for allowance: Prior art fails to show a power supply device for energizing a modular measuring system, the modular measuring system being adapted for measuring or detecting a filling level or a pressure, the modular measuring system comprising a modular display and adjustment unit and a modular low power sensor unit, wherein the power supply device is adapted to be disposed and connected electrically between the display and adjustment unit and the low power sensor unit, enabling for the modular display and adjustment unit and the low power sensor unit to be energized simultaneously, and enabling data communication between the display and adjustment unit and the low power sensor unit wherein the power supply device is adapted to be fitted to the low power sensor unit allowing for a power requirement of $<1.2\text{mA}$ at 5V.

A modular system comprising a modular display and adjustment unit, a modular power supply device, and a modular low power sensor unit which are detachably connectable to each other and which are adapted to be brought into an electrical contact with each other, whereby the power supply device energizes both the display and adjustment unit as well as the low power sensor unit simultaneously, when the modules are connected to each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
